Message from the Section 1510 Chair Messages

Incoming Chair: Eduardo M. Suarez

Welcome to all our members to the July summer edition of The Variant. The next newsletter release will be the September edition. Our fiscal year starts on July 1st and ends on June 30th of the following year. I am honored to serve as Chairperson of Section 1510 for 2010-2011. Although I am new in this position, I have been a member of the ASQ since 1995, have previously held positions of Arrangements Chair and Treasurer of Section 1510, and have attended ASQ Section Leadership Training. An excellent Board has been assembled to provide the membership with many activities as in the previous year and will be listening to your suggestions for areas of improvements and new ideas to be explored.

A very successful and well-attended joint meeting was held with Sections 1510 and 1515. The meeting was at Tropical Acres in Dania and guest speaker Kateri Brunell, Director of ADT Security Services, gave a detailed presentation on Lessons Learned on Lean Six Sigma Deployments.

A tour of the ACR Electronics, Inc. in Ft. Lauderdale was conducted also jointly with Section 1515. ACR designs and manufactures an array of safety and survival products for a customer base in the aviation, marine, aerospace, military, government, etc. Many projects in "Lean Transformation" have been completed and others already started as was explained during the presentation and subsequent facility walk. The Deming Cycle (PDCA) and the A3 Thinking methodologies were also explained in detail as applied to ACR Lean Transformation. The interchange of questions and suggestions between the attendees and the ACR team was informative and constructive.

Outgoing Chair: Rich Eggleston

On Saturday July 17th we will have Linda Milanowsky from National here to give us training at the Crowne Plaza on Sunrise across from Sawgrass.Bring a sweater if you tend to get cold in AC

Please check out the certification review classes on page 2. It is a great way to prepare for the exams, plus you get recertification points for taking the class.

(Continued on page 3)

Message from the Section 1515 Chair by Jay Stahan

In June, ASQ section 1515 co-hosted a dinner meeting with our "sister" section, Section 1510 Miami as well as participated in a joint session tour of ACR Electronics to learn of their Lean initiatives.

On June 8th, Kateri Brunell, Director of Operational Excellence at ADT Security Services, presented "View from the Frontline: Lessons Learned from Multiple Lean Six Sigma Deployments". Ms. Brunell's quality profession experience is vast, starting with FPL and more recently with NCCI, a company very familiar to Section 1515 dinner meeting attendees. Ms. Brunell has developed through her experience a Lean Six Sigma (LSS) Deployment Life Cycle:

LEAN SIX SIGMA DEPLOYMENT LIFECYCLE
Initial Launch (3-9 months) > Early Success (1st-2nd year) > Scale Up Replication (2nd-3rd year) > Institutionalization (3-4th year) > Culture Transformation (4th+ year)

To get the "Biggest Bang for the Buck", deploy the concepts and training to the "masses", meaning, as many employees in your company as you can reach. You need "early wins" to keep the momentum going and to ensure top management support.

The Critical Success Factors include:

- ◆ Management Commitment/Involvement
- ◆ Link LSS to the Business Strategic Plan
- ◆ Change in the Organization Culture
- ◆ Organization Infrastructure
- ◆ Training, Training, Training
- ◆ Application of Analysis Tools
- ◆ Link LSS Deployment to Stakeholders
- ◆ Select the Right Projects
- ◆ Focus upon correctly identifying the X's and the Y's for each project.
- ◆ Business Leaders will always look for ways to improve business performance. Be open to CHANGE!!

June 22nd, Section 1515 had a joint event with Section 1510 which was a tour of ACR Electronics in Fort Lauderdale. The tour with presentation was hosted by Dan Ulmer, Quality Manager for ACR, Lester Subrattee, and Bryan French.

We began with presentation about ACR's ex-

Section 1510 ASQ Certification Refresher Classes

To participate in an ASQ refresher class, please sign up on the web page at www.asqsefla.org. You do not need to be a member of ASQ to participate in a class. RU's are earned for class participation. If you have a question regarding registration or class site, call Mayra Bisnow, Education Chair, at 954-478-0384 or email mbisnow@gmail.com. For course content questions, textbooks, or ASQ certification, contact Eleanor Chilson at 954-661-5197.

Please sign up at least three weeks before the scheduled class start to assure you have the textbook at first session. Any classes that do not register a minimum of five students will be cancelled. *All classes are refresher classes.*

| Class | Class Name | RU's | Fee Includes materials, handouts and text where applicable | When | Time Classes are 5:30 pm to 8:30 unless otherwise listed | Instructor |
|--------|--|------|--|---------------------|--|---|
| IA | Internal Auditing for Quality Systems | 1.0 | \$275 | TBD based on demand | One day Seminar 8:30 am—5:30 pm | Kannan Krishnan CQE, CQA, CQMa, CQIA, CSSBB, CQPA |
| CQT | Certified Quality Technician | 2.7 | \$400 | August, January | 9 sessions | Eleanor Chilson CQE, CQMa, CQA, CQIA and Andy Vouloukos CQE, CRE |
| CMQ/OE | Manager of Quality / Organizational Excellence | 2.7 | \$450 | August, January | 9 sessions | Kannan Krishnan |
| CQE | Certified Quality Engineer | 3.0 | \$450 | September, March | 10 sessions | Jim Carbone, CBA, CQA, CQE, CQMa, Robert Pintavalle CQMa, CQE, CQA, CSSBB |
| CSQE | Certified Software Engineer | 2.4 | \$375 | September, March | 8 sessions | Mercedes Massana CSQE, CQA |
| CQA | Certified Quality Auditor | 2.7 | \$375 | September, March | 9 sessions | Jim Carbone |
| CQIA | Certified Quality Improvement Associate | 2.4 | \$375 | September, March | 8 sessions | Kannan Krishnan |
| CQI | Quality Inspector | 2.4 | \$375 | August, January | 8 sessions | Eleanor Chilson |
| CRE | Certified Reliability Engineer | 3.0 | \$350 | August, January | 10 sessions | TBD |

I would like to take this time to thank all of the Board members of 1510 who assisted me for the last two years. For a bunch of volunteers the body of work you do with its outstanding results is a tremendous feat in my eyes. Thank You so much.

See Ya Soon, Rich

ASQ LEADERSHIP TRAINING Saturday, July 17, 2010

This biannual training is specifically geared to provide the necessary tools and information necessary to run an ASQ section. This training class is offered to all the ASQ Members. With the 1510 Mission in mind, the ASQ-1510 holds biannual Leadership Seminars covering the following topics:

Agenda:

*New Directives National updates
Ethics and professionalism presentation
Working with volunteers
Web site news and recap
Upcoming changes*

Working lunch TOPIC: How can we improve this year?

*Speaker: Linda Milanowski –National ASQ
Members of any other ASQ section may join 1510
See Back Page for Details*

(Continued from page 1)

perience with “LEAN”. Two key “Pillars” of the Lean initiative at ACR are Respect for People, and Continuous Improvement. Often we think of Lean in terms of tools and projects. ACR does too, but it is interesting to note that “Respect for People” is key component to make it successful. ACR makes a great point that during their “re-engineering Lean” type projects, they must not forget the people aspect and implications of the project.

For Continuous Improvement process, ACR uses the PDCA cycle. A major component of ACR’s initiatives is to “learn how to see waste”. It is easy to discuss Lean in a meeting room, but often difficult to have all Lean project members understand what constitutes waste. For ACR, Lean’s focus is “value as perceived by their Customers. Three types of Lean have been defined:

- ◆ Waste that has no value to the customer (such as excess inventory, waiting time, so on)
- ◆ Incidental work has no value for the customer (such as the accounting department, or inspection)
- ◆ Value-added work has value for the customer (such as assembly of parts to a final useful product)

A great tour followed the presentation. The tour provided a view of some of the results of ACR’s Lean projects, such as repositioned work cells, elimination of clutter (ACR uses 6S – added Safety, to the manage orderliness and cleanliness), positioning of hand tools at work stations, and overall subassembly/final assembly process flow. But ACR is not done yet!! More waste reduction projects are in progress. For ACR, many of the projects have focused upon capacity increases without a change in resources and with no layoffs in personnel (personnel are re-deployed).

ACR has been a great supporter of the local ASQ sections. Thanks ACR!!

Another ASQ 1515 year has been completed as of June 30th. It has been a very busy and successful year. The outgoing Leadership Team hopes you have benefited by our efforts to serve YOU, and we look forward to continuing to serve you through Bob Gilbert’s new Leadership Team. Please join us at our many planned events as well as remaining “in touch” on our website (www.asqpalmbeach.org) and through the Variant publication.

My personal THANKS to all members who participated in our VoC survey. Your “Voice was Heard”!! The information is valuable input to our 2010-2011 Business Plan. Results of the survey are available on our website. Check it out!!

Employment Opportunities
