Message from the Section 1510 Chair By Eduardo M Suarez

Welcome to all our members to the first publication of The Variant for the new fiscal year. We closed our 2010-2011 period with a successful facility tour of Noven Pharmaceuticals, Inc. in June. I would like to express my appreciation on behalf of ASQ Section 1510 to Barry Gujral, Director - Quality Engineering; Peter Amanatides, VP - QA/QC; Rick Gilbert, VP - Operations; and Peterjohn Plummer, Manager - Operations Systems Projects, for a well planned afternoon on June 14th. Noven presented awards to several of its Quality Group employees for their accomplishments. The agenda included welcoming the ASQ delegates, lunch, presentation, awards ceremony, closing remarks, and a tour of the facility.

A tour of the facility at Beckman Coulter, Inc. is scheduled for September 13th at 3:00 pm. Check our Section website at www.asqsefla.org for further information. The next ASQ testing day will be on Saturday, October 1st. Information about the tests can be found at our headquarters website, www.asq.org.

Our refresher courses are available and listed in The Variant and in our Section website. I hope you had a great summer

Eduardo

Message from the Section 1515 Chair by Bob Gilbert

It is unbelievable! The summer is over, the kids are returning to school, and our ASQ Section begins another program year. I would like to thank all of our members, and the Leadership team, for making the 2010-11 program year an incredible success. I would also like to thank all our partner organizations; ASTD, ACHE, and SME, for all their support and participation throughout the past year. The Leadership Team met at the end of June to begin closing out the last program year, and began the process of looking forward to planning what we will achieve in the new program year.

What a great plant tour. I can't thank Enrique Bekerman and Becky Henry enough for planning this enjoyable tour. Starting with the background of Publix and a comparative Cola taste test, and ending with an informative tour of their full operational Dairy, this was by far, one of the most enjoyable plant tours we have ever taken. With informative presentations and a slide show, we were brought up to date on how a 21st century Dairy operates, from the gathering of the incoming raw material (milk), through the resale of byproduct (cream). All the health and safety concerns were presented, and all questions were answered with detailed knowledgeable answers. We thank Publix for allowing ASQ to participate in this tour of their facility.

With over 90 participants, the first joint conference with ASTD, SME and ACHE was a wonderful success. With the South Florida Business Journal, and the South Florida Hospital News and Health Report joining us as our sponsors, this event was one of the best of its

**The South Florida Manufacturers Association and the
American Society for Quality (ASQ Section 1510)
Offer this 1-day:**

Quality System Audit Training

Highlights of this learning experience:

- Why do audits?
- Types of Audits
- Audit Preparation
- Conducting the audit
- Audit Reporting
- Audit Closure
- Corrective Action
- Do's and Don'ts in Auditing

Who should attend: Anyone responsible for or participating in Quality System Auditing.

Course Instructor: Kannan Krishnan CQA, CQE, CSSBB, CQMa

Date: Thursday, October 20, 2011

Time: 8:30 a.m. – 5:00 p.m.

Location: SFMA Training Center, McNab Executive Plaza, 1000 W. McNab Rd., Pompano Beach, FL 33069, Room 212

Cost: \$275.00 per person; includes refreshments/lunch

The purpose of the SFMA/ASQ Jointly-Sponsored one-day "Quality System Audit Training," is to increase understanding of auditing techniques. With hands-on interaction, participants learn the step by step process of Quality auditing. They will recognize practical audit, evaluation, and communication skills, and will refine reporting skills and their ability to implement corrective action programs. It is an excellent introductory training for individuals to start their career in auditing.

The benefits of having personnel in your company with these skills include:

- Develop a cadre of new auditors
- Developing effective auditing techniques
- Identifying key activities for performing a successful audit
- Evaluating the significance of audit findings
- Improving communication skills for the presentation of audit findings
- Reporting the findings and evaluations
- Developing and implementing corrective action programs

Eligible for up to 1.0 RU for applicable ASQ recertification

At the completion of this course, participants will have an understanding of the following:

- Duties and Responsibilities of an Auditor and Lead Auditor
- How to prepare for an audit
- How to prepare Audit Checklists
- How to prepare an Audit Schedule or Audit Plan
- Preparing and conducting Opening and Closing Meetings
- How to gather Audit Evidence during the Audit
- Preparing an Audit Report
- How to evaluate Corrective Actions
- Do's and Don'ts for Audits

Please contact Barbara Smith at the SFMA office to register;
BSmith@SFMA.org Phone: 954-941-3558 Fax: 954-941-3559

(Continued from page 1)

kind. Section 1515 worked with our partners at ASTD, SME, and ACHE, to create a learning conference that included input from all four sectors, while focusing on a common theme. The 1st Annual Joint Conference was held at the FAU Student Union Building, in Boca Raton, on June 16, 2011. The title of the conference was “The Human Factor in Performance Improvement.” The conference focused on the human challenges to performance improvement initiatives in the fields of Quality, Healthcare, Training and Development, and Engineering. Highly recognized speakers represented each of these specific disciplines. The Keynote Speaker, Dr. David Kopp, synthesized all the break-out sessions in his presentation, “The Performance Formula.” The six hour event culminated with a delicious Buffet Dinner and Networking opportunities. I would like to thank all of our partners for helping to organize and present such an informative conference.

The turnout for our SME sponsored blended Lead Auditor course was great. We ended up with a waiting list of five people, and will be offer the combo course again in late September. The course gave the participant both ISO 9001:2008 and ISO 14001:2004 Lead Auditor certifications, for the normal cost of one class. Thanks again to SME150 for working with us in offering this course. For more information about the fall course schedule, please contact gil@SME150.org.

We are always looking for more volunteers to join our Chairs as committee members. If you are interested in working with our Leadership team, please contact any of our Board members.

Employment Opportunities
